

We ask God's blessings on those in the various stages of the initial formation programs in Australia, Canada, Darjeeling, Eastern Africa, England, India, Ireland, Mauritius, Peru, Spain and the USA. For all those who inquire we also ask the blessing of God.

We pray for our members in the Courage to Move settings – for those in South Sudan, Zambia, East Timor, Ecuador, Bangladesh, Albania, Seychelles and Ghana. Let us also remember in prayer those who live and minister in Morocco, Gibraltar, Tanzania and Vietnam.

We pray for our members in the Courage to Move settings – for those in South Sudan, Zambia, East Timor, Ecuador, Bangladesh, Albania, Seychelles and Ghana. Let us also remember in prayer those who live and minister in Morocco, Gibraltar, Tanzania and Vietnam.

We pray with the Institute

As we continue to claim the richness of our Constitutions and deepen our familiarity with the new expression of our lives in Volume II let us pray for each other that we may truly be companions of Jesus, women at the heart of the Church...ready to labour with freedom and joy, that in all things God may be glorified. 1.2

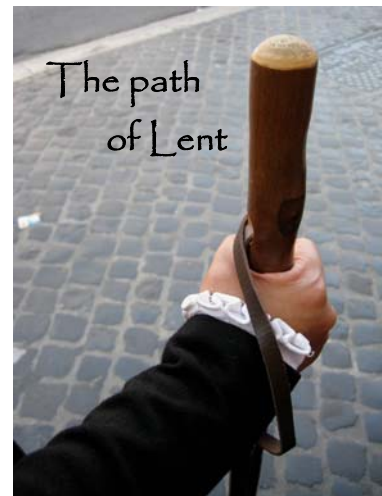

One Small Voice

O God, I know that the heart
is the truest compass.

Grant me
the wisdom to trust the path
itself more than
my own interests,
and the strength to follow
wherever your will leads me.

All of life, each path, is
an open road
if you are with me.

February 2010

All the paths of God are steadfast love
Psalm 25

As we make the journey of Lent in our communities around the world, may we celebrate the rough places and the smooth places, and travel in the awareness that we are always moving towards God and with God.

We pray also for the amazing diversity of humankind, for acceptance of all difference whether racial, religious or cultural and for the promotion of programs to encourage and sustain difference.

2010 is the International Year of Biodiversity a year in which we can celebrate and be concerned for the incredible diversity or variation of life forms throughout the whole earth. Conserving biodiversity for human well-being is a must for the future of our planet. Let us pray for those who make the decisions.

We pray with the Church and the world
